

SIGN UP FOR **CTCleanEnergyOptionsSM** AND SUPPORT YOUR COMMUNITY TODAY!

Every household and business in Connecticut can now sign up to support clean energy!*

**Applicable for CL&P and UI customers only*

That's right, when you **sign up** for the **CTCleanEnergyOptionsSM** program, the lights will still go on, you'll continue to receive your CL&P or UI bill as usual, and your appliances will work just the same as they always have. The only difference is that you will be helping to support cleaner air, a healthier community, greenhouse gas reductions and energy independence. For more information on this program, please visit: <http://ctcleanenergyoptions.com/faq.htm>

SPECIAL BONUS: If your community has passed a resolution committing to the **SmartPower 20% by 2010SM Campaign** then for every 100 customers who sign up for CTCleanEnergyOptionsSM, your town will receive a **FREE solar energy system** from the **Connecticut Clean Energy Fund**. Find out about clean energy in your town at: www.ctinnovations.com/communities

Little People Big Changes

Little People Big Changes was founded by two Wilton third graders who came together in 2006 to identify issues that affect the world, learn about them, and then take action to make changes. As one of their major efforts, they believe that global warming and climate change should be addressed by kids, since kids will be the ones most affected. They have researched the science of global warming by reading, doing internet research, and visiting science museums. They were most impressed by the fact that the earth is now at its warmest in over 650,000 years – the farthest back that scientists can measure climate -- and is getting warmer. This will result in major weather changes, flooding, problems with food and water supply, and spread of disease. They believe that one person can make a big difference, so together we can all change the world.

As a part of Little People Big Changes' climate change initiative, we are campaigning to get Connecticut residents to sign up for CTCleanEnergyOptions so we all can make a difference. Help us to make your town a *Clean Energy Community* today! For more information on Little People Big Changes go to www.littlepeoplebigchanges.com
